Message from the Guest Editors

This Special Issue on "Mine Ventilation and Dust Control Technology in Safety Management Engineering" aims to collect high-quality works, and focuses on the latest development and application of mine ventilation and dust removal technology. Topics of interest include, but are not limited to:

- Law of dust dispersion and pollution in industrial and mining operation environment;
- Dust detection, monitoring and early warning technology;
- Pre control of dust occupational hazards and individual protection;
- Dust explosion and emergency management;
- Research on intelligent ventilation and dust removal devices;
- Mine production safety management engineering.

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
