Petrochemistry Research
Institute, Ruta Nacional 168,
Santa Fe, Argentina

Deadline for manuscript
submissions:

25 January 2025

Message from the Guest Editor

The use of catalysts in the thermochemical process itself, or in subsequent stages, allows for the quality of the products obtained to be improved; this is one of the most popular lines of scientific research on the subject today. This Special Issue, titled "*Research Progress of Catalysts in Thermochemical Conversion of Biomass*", aims to obtain a deeper insight into this topic and create a space in which new research on the topic can converge, allowing for the visualization of the importance of the valorization of biomass via thermochemical processes as an environmentally friendly alternative for the production of energy, fuels, and chemical products.

an Open Access Journal by MDPI

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
