Message from the Guest Editor

This Special Issue on “Recent Advances in Biofilter Process Treatment” is open for all contributors in the field of biofiltration, and it aims to bring together advances in biological processes applied to VOCs and inorganic compounds. The topics include, but are not limited to:

- The development of new types of biofilters.
- The optimization of biofilters’ operation.
- The modelling and simulation of biofiltration.
- New applications of biofilters to the removal of pollutants.
- Strategies to scale-up biofilters to industrial processes.

International contributions to this Special Issue will show the latest advances in biofilter applications.

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
