Message from the Guest Editors

This Special Issue on “Safety and Risk Assessment of Food Products” seeks high-quality works focusing on scientific and technical information and critical analysis for food products. Topics include but are not limited to:

- Biological contaminants in food microorganisms, mycotoxins, plant toxins;
- Physical contaminants in food radiation, plastic particles, etc.;
- Chemical substances in food—food additives, residues (g., pesticide residues and veterinary drug), environmental contaminants (e.g., metals, persistent organic pollutants), food process contaminants (e.g., PAHs, acrylamide, 3-MPCD), contaminants derived from food packaging, etc.;
- Original data on relevant topics (e.g., exposure and hazard assessment);
- Quantitative risk assessment;
- Comparative risk assessment;
- Total diet study;
- Epidemiology of foodborne diseases;
- Risk perception/communication;
- Risk management;
- Benefit–risk analysis.

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
