

Treatment and Utilization of Waste Materials

Guest Editor:

Dr. Szabolcs Fogarasi

Faculty of Chemistry and
Chemical Engineering, Babeş-
Bolyai University, 400028 Cluj-
Napoca, Romania

Deadline for manuscript
submissions:

closed (10 December 2021)

Message from the Guest Editor

The development of eco-friendly waste-treatment technologies could accelerate the transition towards a sustainable industrial system in which undesired byproducts or waste materials can be efficiently recycled and transformed into useful resources for manufacturing processes. To promote the achievement of this goal, we invite the submission of innovative research works addressing critical areas of the Treatment and Utilization of Waste Materials. Subject areas include, but are not limited to:

- Sustainable production with low environmental impact;
- Industrial waste minimization;
- Improved resource efficiency and productivity, resource conservation and pollution reduction;
- Waste-to-resources, waste-to-energy;
- Manufacturing innovative products from adequately processed waste materials;
- Innovation in waste treatment (mechanical, biological, chemical, electrochemical, and thermal);
- Conceptual design, mathematical modeling, and simulation of waste-treatment technologies.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
