submissions:

closed (30 May 2024)

Message from the Guest Editors

This Special Issue aims to collect up-to-date and high-quality studies in the area of advanced manufacturing, with novel methods of production scheduling and optimization control, and to promote developments and applications of optimization theory and methods in relevant fields. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Production scheduling in advanced manufacturing;
- Optimization control in industrial production;
- Reinforcement learning-based production optimization;
- Routing optimization in product distribution;
- Data-driven production process optimization;
- Optimization for industrial facility location.

an Open Access Journal by MDPI

Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
