

## Advances in Enzyme Biotechnology and Applications in Industry and Environment

Guest Editors:

**Prof. Dr. Jianguo Liu**

College of Chemistry and  
Chemical Engineering, China  
University of Petroleum (East  
China), Qingdao 266580, China

**Dr. Xingcui Guo**

Qingdao Institute of Bioenergy  
and Bioprocess Technology,  
Chinese Academy of Sciences,  
Qingdao 266104, China

Deadline for manuscript  
submissions:

**20 November 2024**

### Message from the Guest Editors

Biotechnology is one of the most promising technologies of our times, and enzyme engineering is an important part of biotechnology. As a biocatalyst, enzymes have the characteristics of strong specificity, high catalytic efficiency, excellent stereoselectivity, mild reaction conditions, and simple operation. Presently, enzymes are widely used in fields such as food, brewing, textiles, pharmaceuticals, petrochemicals, and the environment. It can improve product quality, reduce labor intensity, save raw materials and energy, protect the environment, and generate huge economic and social benefits.

This Special Issue on “Advances in Enzyme Biotechnology and Applications in Industry and Environment” seeks high-quality works, focusing on the latest progress and applications of enzyme biotechnology. Topics include, but are not limited to, the following:

- Expression, purification, and characterization of enzymes;
- Mutation and immobilization of enzymes;
- Chemical modification of enzymes;
- Optimization of enzyme catalysis process;
- Application of enzymes in industry and the environment.

## Editor-in-Chief

### Prof. Dr. Giancarlo Cravotto

Department of Drug Science and  
Technology, University of Turin,  
Via P. Giuria 9, 10125 Turin, Italy

## Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
