Anammox-Based Processes for Wastewater Treatment

Guest Editors:

Dr. Albert Magrí
Laboratory of Chemical and Environmental Engineering (LEQUIA), Institute of the Environment (IMA), University of Girona (UdG), E-17003 Girona, Catalonia, Spain

Dr. Tommaso Lotti
Department of Civil and Environmental Engineering – DICEA, University of Florence, Via di Santa Marta 3, 50139 Firenze, Italy

Deadline for manuscript submissions:
closed (15 July 2022)

Message from the Guest Editors

This Special Issue will focus on anammox-based processes for wastewater treatment. We welcome novel research, review, and opinion pieces covering all related topics, including:

- Development of new anammox-based solutions and application to wastewater treatment
- Integrated process design, scale-up and full-scale case studies
- Process modelling, simulation, optimization and control
- Process biochemistry, molecular biology and use of omic techniques
- Gaseous emissions
- Sustainability and life cycle assessment

Special Issue

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto
Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus,
SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.
Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
