Message from the Guest Editor

Dear Colleagues,

Previous and current resource use models have led to high levels of pollution, environmental degradation, and depletion of natural resources. The waste policy has a long history and has traditionally focused on more environmentally sustainable waste management. To be efficient in terms of resource use, the principles of the circular economy should change this trend, transforming the economy into a sustainable economy. The new waste regulations introduce new waste management objectives in terms of waste prevention, reuse, recycling, and storage, by addressing new processes.

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
