Message from the Guest Editors

The Special Issue focuses on its contributing factors to human society and provides an opportunity for discussions on the relevant convergence technologies. Manuscripts may discuss their technological aspects, usefulness, and contributing factors of their respective applications of process control in energy systems after choosing a suitable subject from the list below or select other ones if needed.

The scope of the invited research is not limited to the list below, as long as it is socially meaningful:

Deadline for manuscript
submissions:

closed (5 October 2022)

- Applications of process control in energy systems;
- Process control;
- Fuzzy control;
- Motor control;
- PV systems;
- MPPT;
- Big data of process control;
- Computer vision and image processing of process control
- Optimization theory;
- Smart grids/micro grids;
- Digital excitation control system;
- Monitoring applications;
- CO₂ emissions;
- Manufacturing factories in energy systems;
- Artificial intelligence applications.

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
