Message from the Guest Editor

Dear Colleagues,

This Special Issue on "Recent Advances in Fiber-Reinforced Epoxy Composites and Their Applications" aims to present advances in the preparation and modification methods, properties assessment depending on the types of modifier, fibers, and areas of the application of the fiber-reinforced epoxy composites.

Topics include but are not limited to:

- Novel preparation methods of fiber-reinforced epoxy composites;
- The effect of fiber treatment on the properties of the epoxy composites;
- Influence of nano or micro modification on the fiber-reinforced epoxy composites properties;
- Multi-layer hybrid epoxy composites;
- Review on the application of fiber-reinforced epoxy materials and their properties;
- Multi-criteria assessment of mechanical, thermal, tribological, and structural properties.

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
