Deadline for manuscript submissions:

closed (20 June 2023)

Message from the Guest Editors

This Special Issue on "Green Supply Chain Management (GSCM): Design, Planning, and Optimization" aims to curate novel advances in the development and application of green supply chain modeling to address longstanding challenges toward sustainability. Topics include but are not limited to:

- Development of new green supply chain management models;
- Diagnosis of green supply chain management strategies which make use of model predictions;
- Integration of open-loop or closed-loop control to drive green supply chain management toward sustainability; and
- The development of industry 4.0 methodology to aid green supply chain management.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus,

SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous*))
