submissions:

closed (30 November 2022)

Message from the Guest Editors

This Special Issue on “Optimization and Design of Heating and Cooling System” aims to address recent advances in the aspects of optimization and design of heating and cooling systems, such as optimal design and control approaches for HVAC, heat pump, and solar energy applications.

Topics include but are not limited to:

- Building, environmental, and human behavioural sciences;
- Optimal use of energy resources, analysis and optimization of building energy systems, mitigation of environmental pollutants, and sustainable building energy systems;
- Digitalization and digital twins for modern building-integrated energy systems;
- Modeling and forecasting building energy, conservation strategies, and the environmental, social, and economic impacts of energy policies and usage, including climate change mitigation and other environmental pollution reduction;
- Heat pump and solar energy applications.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
