Message from the Guest Editors

This Special Issue entitled “Edible and Non-Edible Oil Extraction Processes, Modeling and Optimization” aims to cover the recent developments and historical perspectives in methods of oil extraction. Topics include but are not limited to:

- Supercritical fluid extraction;
- Solid-phase extraction;
- Ultrasound assisted extraction;
- Liquid–liquid extraction;
- Microwave-assisted solvent extraction;
- Mechanical screw pressing;
- Uniaxial compression process;
- Extraction, characterization and functional properties.

Deadline for manuscript submissions:

closed (10 March 2024)

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
