Green Hydrogen Production: Advances and Prospects

Message from the Guest Editors

We are pleased to invite you to submit your research to this Special Issue, titled “Green Hydrogen Production: Advances and Prospects”. This Special Issue aims to collect cutting-edge research and developments in relation to green hydrogen energy from researchers on their latest endeavors in advancing this field. Topics of this Special Issue include the following:

- Green hydrogen production systems: conventional and unconventional technologies.
- Renewable energies for green hydrogen production.
- Sizing of green hydrogen energy systems.
- Electronic systems applied to green hydrogen.
- Green hydrogen storage systems: conventional and unconventional technologies.
- Green hydrogen distribution processes.
- Uses of green hydrogen.
- Circular and social green hydrogen economy.
- Other relative aspects.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
