Integrated Approaches to Eco-Friendly Processes for Persistent Pollutants Contamination

Message from the Guest Editors

This Special Issue titled “Integrated Approaches to Eco-Friendly Processes for Persistent Pollutants Contamination” seeks high-quality works focusing on the latest novel advances in bioremediation technology. Topics include, but are not limited to, the following:

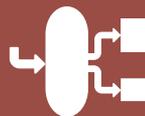

- Remediation techniques for persistent pollutants;
- Integrated remediation processes toward persistent pollutant removal/recovery;
- Low-cost and eco-friendly processes for wastewater treatment and soil remediation;
- Life cycle assessment and life cycle cost of bioremediation processes;
- Process modeling and optimization.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
