

Special Issue

Advances in Hydrodynamics, Pollution and Bioavailable Transfers

Message from the Guest Editors

This Special Issue aims to investigate these interconnected processes and their mechanisms, focusing on the roles of water flow, pollutant transport, and the migration of nutrients and organic matter in aquatic ecosystems. Topics of interest include, but are not limited to, experimental, numerical, and theoretical studies on:

- Hydrodynamic processes in river and lake ecosystems;
- Pollutant migration and the impact of vegetation in mitigating pollution;
- Movement of bioavailable materials and their influence on ecosystem restoration;
- Interaction mechanisms between water flow and pollutant migration;
- Development and optimization of adsorption materials;
- Research on sustainability and economics.

Guest Editors

Dr. Weijie Wang

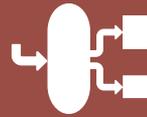

Dr. Guotao Cui

Dr. Jiao Zhang

Dr. Mengyang Liu

Deadline for manuscript submissions

31 July 2026

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto
Department of Drug Science and Technology, University of Turin, Via P.
Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
