Special Issue

The Frontier and Progress of Bioprocess Technology

Message from the Guest Editor

The Special Issue "The Frontier and Progress of Bioprocess Technology" will address the latest research in environmentally friendly bioprocess technology. Bioprocess technologies include bioenergy from lignocellulose materials, biomass gasification, biofuel/bioproduct production from agro-food waste, enzymatic bioprocess technology, food fermentation, bioprocesses optimization scale-up, and modeling. Original papers on bioprocess technologies are solicited. We are particularly interested in receiving manuscripts that integrate biology and engineering research and/or experimental and theoretical studies. We invite researchers from all areas of bioengineering to submit manuscripts for this important Special Issue of *Processes*.

Guest Editor

Dr. Birthe Nielsen

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
