

## Special Issue

# Wastewater and Waste Treatment: Overview, Challenges and Current Trends (Volume II)

### Message from the Guest Editors

Climate change and resource scarcity are under development and represent the most important challenges of the 21st century. Wastewater and waste treatment processes can play a major role in tackling both of these problems. Apart from the technical characteristics, the environmental and economic impacts of any proposed wastewater and waste treatment process should be considered as they strongly affect their viability and adoption potential. With the success of the previous Special Issue, “Wastewater and Waste Treatment: Overview, Challenges, and Current Trends (Volume I)”, Volume II of this Special Issue will continue to highlight current trends and future perspectives in wastewater and waste treatment methods, including economic and environmental assessments. Topics include, but are not limited to, the following: novel biological, advanced oxidation, and physicochemical wastewater and waste treatment methods; current trends in wastewater and waste treatment systems; high-environmental-impact waste streams and treatment challenges; the environmental and economic impact of wastewater and waste treatment methods.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
