

Special Issue

Innovations in Waste Heat Recovery in Industrial Processes

Message from the Guest Editors

We invite submissions to this Special Issue to collect the latest developments and applications on Innovations in Waste Heat Recovery in Industrial Processes in different fields. Original research and review articles are welcome. Areas of interest include, but are not limited to, the following:

- Waste heat power generation technologies;
- Waste heat comprehensive utilization;
- High-efficient waste heat recovery device design;
- Advanced thermal management for industrial processes, such as steel and chemicals;
- Clean and efficient industrial production and innovation;
- Advanced thermodynamic systems for waste heat recovery;
- Carbon reduction potential and sustainability analysis for waste heat recovery.

Guest Editors

Prof. Dr. Qibin Li

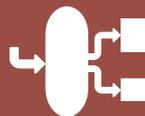

Key Laboratory of Low-Grade Energy Utilization Technologies and Systems of Ministry of Education, College of Power Engineering, Chongqing University, Chongqing 400030, China

Dr. Shukun Wang

College of Engineering and Technology, Southwest University, Chongqing 400715, China

Deadline for manuscript submissions

closed (31 July 2025)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto
Department of Drug Science and Technology, University of Turin, Via P.
Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
