

Special Issue

Industrial Management Control Systems for Sustainable Development

Message from the Guest Editor

This special issue on "Industrial Management Control Systems for Sustainable Development" aims to bring together the most outstanding research and comprehensive coverage of all aspects related to management control for sustainable development, covering a wide range of technologies, tools, and techniques to generate sustainable development through industrial control mechanisms. This special issue will bring together high-quality research articles on different aspects of Management Control Systems, including the current situation and outstanding challenges in sustainable development. Topics include, but not limited to:

- Control modelling for sustainable development. Reviews of the state of the art, including predictions, future scenarios, or future challenges.
- Tools of control and sustainability in industrial SMEs and supply and distribution chains.
- Impact of the management and control of the sustainable development in the food industry, pharmaceutical, or other industries that generate high ranges of waste.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
