

# Special Issue

## Hydrogen Production and Storage

### Message from the Guest Editors

The aim of this proposed Special Issue is to collect worldwide contributions from experts in the fields of hydrogen production and storage, and especially the chemical reactions involved in these fields. The following areas/sections will be covered by the call for original papers: Alternative hydrogen production (electrolysis, solar-driven water splitting, bio-hydrogen, bio-gasification, hydrogen from biomass, etc.); Hydrogen storage in solid materials; Hydrogen storage in organic liquid carriers (LOHC)—hydrogenation/dehydrogenation cycle. Power-to-hydrogen processes

---

### Guest Editors

Dr. Valérie Meille

Dr. Sibudjing Kawi

Prof. Dr. Francesco Frusteri

Prof. Dr. Luis M. Gandía

---

### Deadline for manuscript submissions

closed (31 August 2021)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Dmitry Yu. Murzin  
Faculty of Science and Engineering, Åbo Akademi University, 20500  
Turku, Finland

---

#### Author Benefits

##### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

##### High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO, and other databases.

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.8 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
