submissions:  
**closed (31 May 2023)**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue regards the psycho-social wide range of positive functions that religiosity fills in an individual's life. An additional area of research in this topic should regard religiosity as a factor shaping moral and social desire virtues, such as gratefulness, forgiveness, humility, compassion, altruism, etc. Last but not least, the final area in this subject should refer to religion as a search for ultimate meaning, preventing death anxiety, and should consider the role of different aspects of religiosity and religious commitment as a significant dimension in the treatment of addictions and co-addiction and chronic mental illnesses.

I invite you to prepare and submit original research papers, reviews and meta-analyses from psychological and societal perspectives, which exhaustively display the plethora of function that religiosity fills in human existence.

## Message from the Editorial Board

Fresh developments in the disciplines that consistently make significant contributions to our understanding of religious personality, authority, devotion, and community - disciplines ranging from psychology, sociology, and anthropology to history, art history, philosophy, literary criticism, and political science – fuel general, as well as scholarly, interest in the world's religions.

*Religions* is inviting innovative and comparative contributions. Please consider Religions as an exceptional, exciting enterprise ready to reward your trust, attention, and participation.
