

Special Issue

Kant's Critique of Rational Theology and His Project of Moral Religion

Message from the Guest Editor

Immanuel Kant is unquestionably one of the most distinguished philosophers in history. However, his philosophy of religion has received significantly less recognition compared to his theoretical and moral works, despite a growing acknowledgment of its significance in recent years. We invite academics in philosophy and religious studies to contribute original research articles on themes, including (but not limited to) the following:

- Kant's critique of the ontological proof;
- Kant's thesis on existence;
- Kant on the relationship between knowledge and belief;
- Kant's moral argument for God;
- The role of God in Kant's philosophy;
- Kant's theory of radical evil;
- The teleological elements in Kant's doctrine of religion;
- Kant on the historicity of religion.

About the Journal

Message from the Editorial Board

Fresh developments in the disciplines that consistently make significant contributions to our understanding of religious personality, authority, devotion, and community – disciplines ranging from psychology, sociology, and anthropology to history, art history, philosophy, literary criticism, and political science – fuel general, as well as scholarly, interest in the world's religions.

Religions is inviting innovative and comparative contributions. Please consider Religions as an exceptional, exciting enterprise ready to reward your trust, attention, and participation.
