

Women's Special Issue Series: Remote Sensing 2023-2025

Guest Editors:

Prof. Dr. Marguerite Madden

Franklin College of Arts and Sciences, University of Georgia, Athens, GA 30602, USA

Dr. Rosanna Rivero

College of Environment and Design, University of Georgia, Athens, GA 30602, USA

Deadline for manuscript submissions:

closed (15 July 2025)

Message from the Guest Editors

Women are underrepresented within the field of remote sensing. While comprising only around 30% of researchers and practitioners in this field, women have made enormous contributions to the field of remote sensing and continue to participate in advances in. As such, *Remote Sensing* would like to provide a platform to support women researchers, scientists, engineers and specialists across all relevant fields of study.

This Special Issue of *Remote Sensing* aims to highlight the diversity of research being performed across the entire breadth of relevant areas and presents advances in theory, experiment, and methodology of remote sensing, placing particular emphasis on applications to compelling problems.

an Open Access Journal by MDPI

Editors-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S.
Geological Survey (USGS), USGS
Western Geographic Science
Center (WGSC), 2255, N. Gemini
Dr., Flagstaff, AZ 86001, USA

Prof. Dr. Dongdong Wang

Institute of Remote Sensing and
Geographic Information Systems,
Peking University, Beijing, China

Message from the Editorial Board

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
