

an Open Access Journal by MDPI

Women's Special Issue Series: Remote Sensing 2023

Guest Editors:

Prof. Dr. Marguerite Madden

Center for Geospatial Research,
Department of Geography,
University of Georgia, Athens, GA
30602, USA

Dr. Alisa Coffin

Agricultural Research Service,
Southeast Watershed Research,
U.S. Department of Agriculture,
Tifton, GA 31793, USA

Dr. Rosanna Rivero

College of Environment and
Design, University of Georgia,
Athens, GA 30602, USA

Deadline for manuscript
submissions:

closed (30 April 2024)

Message from the Guest Editors

Women are underrepresented within the field of remote sensing. While comprising only around 30% of researchers and practitioners in this field, women have made enormous contributions to the field of remote sensing and continue to participate in advances in. As such, *Remote Sensing* would like to provide a platform to support women researchers, scientists, engineers and specialists across all relevant fields of study.

This Special Issue of *Remote Sensing* aims to highlight the diversity of research being performed across the entire breadth of relevant areas and presents advances in theory, experiment, and methodology of remote sensing, placing particular emphasis on applications to compelling problems.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S.
Geological Survey (USGS), USGS
Western Geographic Science
Center (WGSC), 2255, N. Gemini
Dr., Flagstaff, AZ 86001, USA

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
