submissions:

closed (30 June 2024)

Message from the Guest Editors

This Special Issue aims to provide a platform for researchers to publish innovative work addressing recent advances in position and navigation under GNSS signal-challenging or denied environments. Specifically, we invite contributions concerning the following topics:

- GNSS multipath, NLOS and spoofing identification, mitigation or correction;
- LiDAR/Visual SLAM;
- Indoor position with new technologies;
- Multi-sensor integration and fusion;
- Micro-Technology for Positioning, Navigation, and Timing;
- Cooperative navigation;
- RAIM and fault detection;
- RTK or PPP in urban areas.

an Open Access Journal by MDPI

Editors-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S.
Geological Survey (USGS), USGS
Western Geographic Science
Center (WGSC), 2255, N. Gemini

Geographic Information Systems,
Peking University, Beijing, China

Message from the Editorial Board

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
