## Space-Based Earth Observations for Disaster Risk and Emergency Monitoring

Guest Editors:

**Dr. Suju Li**

National Disaster Reduction  
Center of China, Ministry of  
Emergency Management, P.R.C,  
Beijing 100124, China

**Dr. Shirish Ravan**

United Nations Office for Outer  
Space Affairs, UN-SPIDER  
Programme, P.O. Box 500, A-1400  
Vienna, Austria

**Prof. Dr. Wenjiang Huang**

Aerospace Information Research  
Institute, Chinese Academy of  
Sciences, Beijing 100094, China

Deadline for manuscript  
submissions:

**closed (15 September 2023)**

### Message from the Guest Editors

Dear Colleagues,

Climate change has exacerbated the increase in complexity and severities of disasters and disaster risks. It is highly necessary to monitor, predict the incidence and prevalence to support scientific disaster risk understanding and emergency response at diverse scales by remote sensing technology.

In this Special Issue, we welcome papers from the international research community actively involved in research activities on utilizing earth observations for disaster risk understanding and emergency response. The Special Issue is open to all researchers working in these fields. The choice of papers for publication will rely on quality, soundness, and rigour of research.

Dr. Suju Li  
Dr. Shirish Ravan  
Dr. Wenjiang Huang

## Editor-in-Chief

### Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S.  
Geological Survey (USGS), USGS  
Western Geographic Science  
Center (WGSC), 2255, N. Gemini  
Dr., Flagstaff, AZ 86001, USA

## Message from the Editor-in-Chief

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

**Journal Rank:** JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
