

Advances of Remote Sensing in Mapping Arid/Semi-arid Environment

Guest Editor:

Prof. Dr. Farouk El-Baz

Boston University, Center for
Remote Sensing, Boston, MA
02215, USA

Deadline for manuscript
submissions:

closed (30 November 2021)

Message from the Guest Editor

There are lots of arid and semi-arid lands in the earth due to natural changes and human's activities. It is important for us to recognise the causes and effects of the environmental changes. Advances in remote sensing technologies help us to collect the more accurate digits and images so that we can understand more about arid lands in various parts of the electro-magnetic spectrum.

This Special Issue is related to the origin and nature of, as well as the environmental changes to, arid lands. Welcome authors to submit the manuscripts with remote sensing related to those areas.

an Open Access Journal by MDPI

Editors-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S.
Geological Survey (USGS), USGS
Western Geographic Science
Center (WGSC), 2255, N. Gemini
Dr., Flagstaff, AZ 86001, USA

Prof. Dr. Dongdong Wang

Institute of Remote Sensing and
Geographic Information Systems,
Peking University, Beijing, China

Message from the Editorial Board

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
