Deadline for manuscript submissions:

**closed (31 October 2020)**

### Message from the Guest Editors

Dear Colleagues,

Natural and cultural heritage worldwide often faces geological and human-induced processes that can potentially threaten its integrity, value and accessibility. This special issue of *Remote Sensing* aims to gather research articles, reviews, short communications and technical notes showcasing the use of aerial and satellite remote sensing technologies and their derived data to study geohazards in heritage sites and landscapes.

We welcome papers on the current scenarios of natural and human-induced threats to the conservation of heritage sites worldwide, focusing on:

- target geographical domain: local, regional, country or global scales;
- heritage category: UNESCO World Heritage (natural and cultural), Global Geoparks, and Biosphere Reserves; national parks, natural reserves, historic sites, listed buildings, or other world-, country- and regional-level heritage site designations.

Dr. Francesca Cigna

Dr. Deodato Tapete

## Message from the Editor-in-Chief

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

**Journal Rank:** JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
