Message from the Guest Editors

Dear Colleagues,

This *Remote Sensing* Special Issue aims to promote the application of remote sensing research in MLE focusing on ecosystem services and land degradation management. Many MEL countries have different remote sensing capacity, so this Special Issue focuses on both interesting regional-scale assessment and global-scale approaches that address current issues in this region. Authors are invited to submit papers, particularly on:

Deadline for manuscript
submissions:

closed (15 January 2022)

- Monitoring land cover and land use changes using various spatiotemporal data in the MLE;
- Assessing and monitoring ecosystems (forests, grasslands, wetlands, agriculture, deserts, etc);
- Monitoring ecosystem functions, ecosystem services, land degradation in the MLE;
- Land accounts system and land degradation neutrality using remote sensing;
- Desertification, deforestation, restoration, urbanization, and landscape management issues;
- Methods and approaches to manage the ecosystem services and land degradation.

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
