

## Stereoscopic Remote Sensing of Air Pollutants and Applications

Guest Editor:

**Prof. Dr. Cheng Liu**

School of Engineering Science,  
University of Science and  
Technology of China, 96 Jinzhai  
Road, Hefei 230026, China

Deadline for manuscript  
submissions:

**closed (31 December 2022)**

### Message from the Guest Editor

This Special Issue aims at studies on remote sensing of atmospheric pollutions by different sensors and platforms. Topics can cover all aspects of sensor design, new techniques for atmospheric pollutant measurements, and applications of remote sensing.

Fields of research and review articles include but are not limited to the following topics:

Development of retrieval algorithm for trace gases, greenhouse gases, aerosol, and cloud; satellite observation; ground-based measurements; unmanned aerial vehicle observation; aircraft observations; design of sensor; application of remote sensing; machine learning.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

**Journal Rank:** JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
