Taichung, Taiwan

Dr. Ming-Chih Cheng

National Space Organisation,
Hsinchu, Taiwan

Deadline for manuscript
submissions:

closed (1 February 2022)

Message from the Guest Editors

Dear colleagues,

The purpose of this Special Issue is to provide a platform for training data sharing by making labeled and unlabeled data findable and accessible through domain-specific repositories. All kinds of remote sensing data are welcome, such as images, videos, and sensor data. An article describes data descriptors containing a description of a dataset, including what methods used for collecting or producing the data, where the dataset may be found, and how to use the data with use information or a showcase.

Prof. Dr. Ming-Der Yang

Dr. Huiping Tsai

Dr. Ming-Chih Cheng

Western Geographic Science
Center (WGSC), 2255, N. Gemini
Dr., Flagstaff, AZ 86001, USA

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
