

## Spatial-Temporal Monitoring of Environmental and Ecological Processes Using LiDAR

Guest Editors:

**Dr. Yingkui Li**

**Dr. Qingwu Hu**

**Dr. Haidong Li**

**Dr. Robert Washington-Allen**

Deadline for manuscript  
submissions:

**closed (10 December 2022)**

### Message from the Guest Editors

The advantages of LiDAR (light detection and ranging) technology provide unique opportunities to monitor spatial-temporal changes in environmental and ecological processes. LiDAR sensors can be implemented in ground-, mobile-, aerial-, and space-based platforms with a variety of spatial and temporal resolutions. Although more and more studies have been conducted, there is still a need to develop novel methods and best practices in processing LiDAR data and effectively quantifying environmental and ecological processes. This Special Issue invites submissions of both research and review papers on innovative applications using various LiDAR sensors to monitor spatial and temporal changes in environmental and ecological processes.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

**Journal Rank:** JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
