

## Instruments and Methods for Ocean Observation and Monitoring

Guest Editors:

**Dr. Francesco Serafino**

**Dr. Claudio Lugni**

**Prof. Dr. Maurizio Brocchini**

Deadline for manuscript  
submissions:  
**closed (31 March 2018)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to investigate matters relating to:

- 1) technologies for sea observation and monitoring (waves, currents, bathymetry, wind);
- 2) monitoring of water chemical and physical parameters;
- 3) assimilation of marine coastal and deep environment data into numerical models;
- 4) technology and techniques for oil spill detection and analysis;
- 5) technologies and techniques for ships and objects detection.

Dr. Francesco Serafino

Dr. Claudio Lugni

Prof. Maurizio Brocchini

## Message from the Editor-in-Chief

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

**Journal Rank:** JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
