

## Special Issue

# Multi-GNSS Precise Point Positioning (MGPPP)

### Message from the Guest Editors

Multi-GNSS, multi-frequency, and multi-signal adopt more measurements and enable more new options in the linear combination than using the legacy dual-frequency measurements in PPP. On the other hand, this also makes it more challenging to handle different types of biases in ambiguity resolution. This Special Issue aims to discuss advances in using Multi-GNSS, multi-frequency, and multi-signal in PPP/PPP-AR/PPP-RTK, as well as in the computation of atmospheric parameters. New updates and assessments of HAS, PPP-B2b, or other services in smartphone, ground station, and low-earth orbit (LEO) satellite positioning are welcome, too.

## About the Journal

### Message from the Editorial Board

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

### Editors-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Prof. Dr. Dongdong Wang

Institute of Remote Sensing and Geographic Information Systems, Peking University, Beijing, China

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

#### Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
