Deadline for manuscript submissions:

closed (30 June 2017)

Message from the Guest Editor

Dear Colleagues,

On June 23, 2016, the United Kingdom voted to separate from the EU. In the hours after the announcement, we could observe a huge reaction in the financial markets, e.g., the British pound fell below 1.30 against the US dollar—the lowest level since 1985. In this Special Issue, we seek contributions on two main research questions: First, the estimation of the probability of a Brexit with data available before June 23. Among others, interesting research questions are whether financial markets anticipated this decision, and whether there was a difference between spot and derivative markets in processing the relevant information. Second, forecasting the mid- and long-term economic and financial consequences of such a decision.

Submissions on any of these interesting developments would be welcome.

Alex Weissensteiner Guest Editor

Message from the Editor-in-Chief

Risks is published in Open Access format – research articles, reviews and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes contributions that

- contribute with insight, outlook, understanding and overview, no matter how simple they are;
- show creativity in pedagogical tricks and techniques;
- help the transfer of theoretical research to public and private application;
- show responsibility for societal impact.

The scientific community and the general public have unlimited free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed within Scopus, ESCI (Web of Science), EconLit, EconBiz, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Business, Finance*) / CiteScore - Q1 (Economics, Econometrics and Finance (miscellaneous))
