Eckerstr. 1, 79104 Freiburg,  
Germany

Deadline for manuscript  
submissions:

**closed (20 February 2022)**

### Message from the Guest Editor

Dear Colleagues,

In recent years, machine learning has seen tremendous successes in many areas. In insurance and finance, additional difficulties due to the inherently dynamic and complex environment, small data, and the need for a precise understanding of the risks of applied algorithms pose enormous challenges to research and practice.

This Special Issue collects some of the latest developments with a focus on applications and their possible risks. Code for the used algorithms will be made available.

Prof. Dr. Thorsten Schmidt

Faculty of Actuarial Science and Insurance, Bayes Business School, City University of London, 106 Bunhill Row, London EC1Y 8TZ, UK

## Message from the Editor-in-Chief

*Risks* is published in Open Access format – research articles, reviews and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes contributions that

- contribute with insight, outlook, understanding and overview, no matter how simple they are;
- show creativity in pedagogical tricks and techniques;
- help the transfer of theoretical research to public and private application;
- show responsibility for societal impact.

The scientific community and the general public have unlimited free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High visibility:** indexed within **Scopus, ESCI (Web of Science), EconLit, EconBiz, RePEc,** and **other databases.**

**Journal Rank:** JCR - Q2 (*Business, Finance*) / CiteScore - Q1 (Economics, Econometrics and Finance (miscellaneous))
