Institute of Industrial Management, Economics and Trade, Graduate School of Industrial Economics, Peter the Great St. Petersburg Polytechnic University, 195251 St. Petersburg, Russia

Deadline for manuscript submissions:

closed (1 March 2023)

Message from the Guest Editor

The emergence of new technologies leads to structural changes in socioeconomic systems. These changes occur at regional, industrial, and business levels. At the regional level, these changes should be implemented by public authorities as part of the smart and sustainable development of territories. At the industrial level, these changes result in the development of Industry 4.0 in the form of new products, supply chains, business models, and technologies. Finally, at the business level, the emergence of these technologies leads to the transformation of business processes and the reshaping of their operations. All these changes lead to the emergence of new risks and requires the development of new methods for their assessment.

This Special Issue is open to all types of papers dedicated to risk analysis and management in the digital and innovation economy, but empirical works reflecting qualitative and quantitative or mixed decisions are especially welcome.

Faculty of Actuarial Science and Insurance, Bayes Business School, City University of London, 106 Bunhill Row, London EC1Y 8TZ, UK

Message from the Editor-in-Chief

Risks is published in Open Access format – research articles, reviews and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes contributions that

- contribute with insight, outlook, understanding and overview, no matter how simple they are;
- show creativity in pedagogical tricks and techniques;
- help the transfer of theoretical research to public and private application;
- show responsibility for societal impact.

The scientific community and the general public have unlimited free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High visibility: indexed within **Scopus**, **ESCI (Web of Science)**, **EconLit**, **EconBiz**, **RePEc**, and **other databases**.

Journal Rank: JCR - Q2 (*Business, Finance*) / CiteScore - Q1 (Economics, Econometrics and Finance (miscellaneous))
