# Sensors for Structural Health Monitoring of Structures and Infrastructures

Guest Editors:	Message from the Guest Editors
Dr. Kevin Kuang	Dear Colleagues,
Prof. Dr. Wing Chiu	Structural Health Monitoring (SHM) presents a systematic,
Prof. Dr. Seunghee Park	objective, and predictive approach to structural assessment that enables the early detection of potential
Prof. Dr. Honghu Zhu	issues, informed decision-making in maintenance practices, and the enhancement of overall structural safety and durability.
Deadline for manuscript submissions: <b>31 October 2024</b>	This Special Issue invites contributions that address the use of innovative sensors, sensing principles, or the innovative use of traditional sensors and transducers to solve the sensing needs of a particular SHM project. Topics related to SHM include but are not limited to:
	<ul> <li>Novel sensors.</li> <li>Optical fiber sensors.</li> <li>Smart paints.</li> <li>Luminescence-based sensing systems.</li> <li>Large strain sensors.</li> <li>Sensors for extreme environments.</li> <li>Vision-based sensors.</li> <li>IoT and cloud-linked sensors.</li> </ul>

- IoT and cloud-linked sensors.
- Pattern recognition and deep learning with smart sensor systems.
- Self-sensing composite materials.
- Bio-inspired sensor networks.
- Self-sensing and self-healing concrete materials.

## **Editor-in-Chief**

# Message from the Editor-in-Chief

#### **Prof. Dr. Vittorio M. N. Passaro** Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

# **Author Benefits**

**Open Access :** free for readers, with article processing charges (APC) paid by authors or their institutions. **High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases. **Journal Rank:** JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
