**Dr. Vanaraj Ramkumar**

Deadline for manuscript  
submissions:

**15 February 2025**

### Message from the Guest Editors

Electrospun nanofibers produced via simple electrospinning technique have demonstrated vast interest in various fields due to its astonishing properties such as unique structure, high surface area and well-defined porosity. Its simple and controlled surface modification, incorporation of active species and easy handling are the key advantages that made the nanofibers a suitable candidate in various application such as catalysis, filters, sensors, energy and biomedical. Recently, a growing interest in the potential use of electrospun composite nanofibers in sensing and biosensing applications. Some of the very importance electrospun composite nanofibers-based sensors are wearable biosensors, metal-ion sensors, drug molecules sensors, label-based and label-free biosensors, electrochemical sensors, etc. In this light, the aim of this Special Issue is to generate discussion on the latest advances in research on electrospun composite nanofibers-based sensing and biosensing applications.

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
