Advances, Methodologies and Practical Implementations in Fuzzy Sets and Sensor Technologies

Guest Editor:

Dr. Muhammad Gulistan

Department of Electrical and
Computer Engineering, University
of Alberta, Edmonton, AB T6G
2R3, Canada

Deadline for manuscript
submissions:

31 July 2024

Message from the Guest Editor

Fuzzy sets provide a robust framework for dealing with sensor technologies' uncertainty, vagueness, and imprecision. This Special Issue aims to explore the integration of fuzzy sets in the context of sensor technologies, showcasing the latest advancements, methodologies, and practical implementations. Fuzzy sets offer a flexible and robust approach to modeling and analyzing sensor data, enabling more accurate interpretation and decision-making processes. This Special Issue brings together researchers and experts to present their cutting-edge research, innovative methodologies, and successful applications of fuzzy sets in various sensor technologies.

This Special Issue focuses on integrating fuzzy sets within sensor technologies, addressing the challenges of uncertainty and imprecision in data interpretation and decision-making processes. This Special Issue provides a valuable resource for researchers, engineers, and practitioners in the field by showcasing the advancements, methodologies, and practical implementations of fuzzy sets in sensor technologies.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
