an Open Access Journal by MDPI

Deep Learning for Environmental Remote Sensing

Guest Editors:

Dr. Laure Berti-Equille

IRD—National Institute of Research for Sustainable Development—UMR ESPACE-DEV, Montpellier, France

Dr. Dino Ienco

INRAE—National Research Institute for Agriculture, Food and Environment—UMR TETIS, Montpellier, France

Dr. Cássio Fraga Dantas

INRAE—National Research Institute for Agriculture, Food and Environment—UMR TETIS, Montpellier, France

Deadline for manuscript submissions:

closed (26 July 2023)

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to gather cutting-edge contributions using deep learning to analyze remote sensing data for environmental applications. Contributions are accepted in different areas of application, including, but not limited to, environmental studies, agroecology, agroforestry, water management, biodiversity assessment and restoration, forest disturbances, natural resources mapping, disaster management, etc., and can offer methodological contributions including modeling, deep learning architecture search, remote sensing data engineering for DL, benchmarking, open access datasets, etc. Studies reporting on deep learning methods applied to (multitemporal) active or passive remote sensors' data, LiDAR, airborne platforms, drones, and terrestrial vehicles are welcome, as are papers describing techniques exploiting various sources, such as multimodal and multiscale data fusion. Contributions can be submitted in various forms, such as research papers, review papers, and comparative analyses.

Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
