## Advances in Security of Mobile and Wireless Communications

Guest Editor:

### **Dr. Hyoungshick Kim**

Department of Computer Science and Engineering, College of Computing, Sungkyunkwan University, Seoul 06351, Republic of Korea

Deadline for manuscript submissions:

**10 August 2024**

### **Message from the Guest Editor**

Dear Colleagues,

The advancements in mobile and wireless communications have transformed industries such as transportation and healthcare. This has expanded the capabilities of our world, but it has also brought about new cybersecurity challenges. The surge in connected devices produces large amounts of data, making them attractive to potential attackers and creating new vulnerabilities. Mobile malware, wireless sensor network intrusion, and data breaches are serious threats that need to be addressed. As technology continues to evolve, the sophistication of attacks is also increasing, making traditional security measures inadequate.

This Special Issue explores cutting-edge mobile and wireless communications security developments, including machine learning (ML)-based security solutions; malware, intrusion, and anomaly detection; risk assessment; and security protocols. The Special Issue aims to report high-quality research on recent advances in mobile and wireless communications security. Topics of interest include, but are not limited to, those covered by the keyword list below.

Dr. Hyoungshick Kim

## Editor-in-Chief

### **Prof. Dr. Vittorio M. N. Passaro**

Dipartimento di Ingegneria  
Elettrica e dell'Informazione  
(Department of Electrical and  
Information Engineering),  
Politecnico di Bari, Via Edoardo  
Orabona n. 4, 70125 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
