Integrating Cloud Computing, Sensing Technologies, and Digital Twins in IoT Applications

Guest Editors:

Dr. Virginia Pilloni

Department of Electrical and Electronic Engineering, University of Cagliari, 09127 Cagliari, Italy

Dr. Francesca Marcello

Department of Electrical and Electronic Engineering, Via Marengo, 09123, Cagliari, Italy

Deadline for manuscript submissions:

1 March 2025

Message from the Guest Editors

Dear Colleagues,

The Internet of Things (IoT) has revolutionized the way we interact with our environment, creating a seamless network of interconnected devices that collect, process, and exchange data. As IoT applications continue to expand, the need for more sophisticated and holistic approaches to data management and system modelling has become evident. Cloud computing, sensing technologies, and digital twins are opening new frontiers in observing, analyzing, and understanding different environments and human behaviour, with far-reaching implications across various domains. From healthcare and personal wellness to ambient intelligence and smart cities, the applications are diverse and vast.

This Special Issue aims to explore the cutting-edge developments in cloud computing, digital twins, and sensing technologies within the IoT context, with a particular focus on their integration to create more intelligent, responsive, and user-centric IoT systems. sensors

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
