Advances in Artificial Intelligence for Biomedical Signal and Image Analysis

Guest Editors:

Dr. Roneel V. Sharan

Australian Institute of Health
Innovation, Macquarie University,
Sydney, Australia

Dr. Sidong Liu

Centre for Health Informatics,
Macquarie University, Sydney,
NSW 2019, Australia

Dr. Hao Xiong

Australian Institute of Health
Innovation, Macquarie University,
Sydney, Australia

Deadline for manuscript
submissions:

closed (30 November 2022)

Message from the Guest Editors

Dear Colleagues,

Biomedical signal and image processing find application in the detection, management, and treatment of various diseases and disorders. Recent advances in artificial intelligence, and especially in deep learning, for biomedical signal and image analysis have improved predictive performance. However, various challenges are encountered in the use of artificial intelligence on biomedical data, such as small datasets, different data sources, noise in signal and data annotation, and computational limitations, amongst others.

In this Special Issue on “Advances in Artificial Intelligence for Biomedical Signal and Image Analysis”, we invite scientists and researchers to contribute original research papers on their use of novel artificial intelligence techniques for the analysis of biomedical signals and images or comprehensive review papers on the advances in artificial intelligence for biomedical signal and image analysis.

For more information on the issue, please access the website at: <https://www.mdpi.com/si/103560>
Please contact the Guest Editors or the Section Managing Editor at (ava.jiang@mdpi.com) for any queries.

Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
