Message from the Guest Editors

Dear Colleagues,

Locating devices in indoor environments has become a key issue for many emerging location-based applications and intelligent spaces in different fields. However, there is no overall easy solution today. Although no large-scale deployment of such location systems is available yet, this strategic topic is called to lead technological innovations of great impact on the daily activities of people in the coming years, in areas such as healthy and independent living, leisure, security, etc.

Topics of this special issue in the area include:

- indoor location
- indoor navigation/ positioning
- indoor GNSS
- fingerprinting
- UWB
- indoor maps
- AOA
- TOF
- TDOA
- 5G positioning
- RFID
- radar
- robotics and UAV
- visible light positioning
- privacy and security for indoor location systems
-

sensors

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
