Telecommunications and
Informatics, Gdansk University of
Technology, 80-233 Gdansk,
Poland

Deadline for manuscript
submissions:
closed (25 August 2023)

Message from the Guest Editor

The objective of this Special Issue is to report techniques for IoT and 5G antennas that reach beyond the frontiers of the current state of the art. The topics of interest cover design and modeling methods, beam control techniques, and optimization algorithms, including but not limited to:

- Analysis of shadowing effects;
- Algorithmic selection and generation of topologies;
- Design and validation of beamforming networks;
- Computer-aided design;
- Energy harvesting;
- Failure identification techniques;
- Forward and inverse modeling techniques for 5G/IoT antennas and arrays;
- MIMO structures and massive MIMO systems;
- Miniaturization techniques;
- Multi-physics modeling and optimization;
- Radiation effects on living tissues;
- Reconfigurable antennas;
- Specialized optimization algorithms;
- Structures and algorithms for automobile communication;
- Surrogate-assisted methods;
- Quality-of-service-oriented design
- Telemedicine and biomedical applications;
- Yield estimation and maximization techniques.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
