Enabling Citizen Science in Communal Smart Environments with IoT Technology

Guest Editors:

Dr. Diego Casado-Mansilla

Facultad de Ingeniería,
Universidad de Deusto, 48007
Bilbo, Spain

Prof. Dr. Diego López-de-Ipiña

DeustoTech, University of Deusto,
Avenue Universidades 24, 48007
Bilbao, Spain

Dr. Oihane Gómez-Carmona

DeustoTech, University of Deusto,
48007 Bilbao, Spain

Deadline for manuscript
submissions:

closed (30 July 2023)

Message from the Guest Editors

Machines are effective and efficient in the discovery of implicit knowledge or hidden patterns from large-scale data, whereas humans are good at conducting cognitive analysis such as reasoning, inference, and making instinctive judgments by taking into consideration dynamic and multiple factors. When people are organized into groups to conduct research activities, this is called Citizen Science, which pursues collective intelligence. One way to address the two above-mentioned issues is to marry the strengths and mitigate the weaknesses of human intelligence and AI, making them work in collaboration and cooperation. In this Special Issue, we will focus on existing research regarding the intersection of Citizen Science, artificial intelligence, and IoT to create communal smart environments where synergy and symbiosis among the agents that are enabled. We are especially interested in articles regarding experiences where people and machines collaborate on data collection, modelling, analysis and ubiquitous intelligence for a wide range of applications of crowd-sourced, Internet-based information.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
