Deadline for manuscript
submissions:

closed (31 December 2020)

Message from the Guest Editors

Dear Colleagues,

Wireless Sensor Networks (WSN) are spatially distributed autonomous sensors that monitor physical or environmental conditions (such as temperature, sound, pressure, pollution levels, humidity, wind) and cooperatively pass their data through the network to a main location. There are many application areas of WSN, such as health care monitoring, where sensitive personal information is collected and transmitted through the network, which inevitably may lead to serious privacy and security issues. This special issue will highlight major achievements and latest advances in the field of information privacy in WSN. We aim to gather cutting-edge contributions both from academia and industry. We invite high-quality submissions of original work not under review elsewhere.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
